ELITE ESSENTIAL  
INTEGRATING PEOPLE AND KNOWLEDGE

UNLEASHING CREATIVITY AND PROBLEM SOLVING THROUGH

# LEGO® SERIOUS PLAY®

**27-28**  
SEPTEMBER  
2017

MING GARDEN HOTEL  
KOTA KINABALU

Research shows that hands-on, minds-on learning produces a deeper, more meaningful understanding of the world and its possibilities – much more so than listening or reading. When working with LEGO® SERIOUS PLAY®, you will use three-dimensional thinking by creating and constructing metaphors to describe real situations your organization faces. When our hands are used in learning, a complicated process takes place that generates a powerful emotional charge. As a result, thoughts and ideas that are built with our hands tend to be expressed in greater detail. They are more easily understood and better remembered.

Fully harvest the insight, ideas and imagination available in you. Tap into the human ability to imagine, to describe and make sense of the business at hand, to initiate change and improvement, and even to create something radically new.

**PROUDLY  
ORGANIZED BY**

INTEGRATING PEOPLE AND KNOWLEDGE

**OFFICIAL  
HOTEL**

## LEARNING OUTCOMES

Upon completion of the programme, participants should be able to:

- Understand the different types of imagination and the power of imagination
- Understand the power of the subconscious mind of an individual
- Recognize that creative thinking is essential within a problem solving cycle
- Understand the need to look beyond their current functional units and seeing the bigger picture of their roles
- Define divergent vs convergent thinking – Uses of both frameworks
- Understand the barriers to creative thinking
- Utilize strategies to overcome blockages
- Review possible best practice techniques that suit the individual and the team
- Identify appropriate techniques for each situation
- Stimulate the group to become more creative
- Generate ideas that are ultimately applied
- Realize that collaboration is the key to moving forward as the ingredient for success
